Local and General:

Tree planting has been the general rule in town this week. E. Wegener the local agent, having disposed of a large consignment of trees and shrubs.

Ed. Hendrickson, we hear, purposes housekeeping, having purchased a house in town. Better take a partner Ed., she will be company and as the old song goes "Two makes jolly fine company."

Mrs. C. McKay spent a few days in Calgary last week. Charlie went down by car on Saturday evening and returned Sunday night accompanied by Mrs. McKay.

The dance at Ruddy's in aid of the local band, on Friday evening last was a decided success, a large number turning up, and all reported having spent a most enjoyable time. A good sum was collected.

We hear that our local barber has become the possessor of a Ford runabout.

Another change has taken place at our local post office, Miss Nicholson leaving Crossfield on Monday for Calgary, having secured a situation in the city. Miss Burton, of Bottrel, has been appointed in her stead.

Water With Meals

Most people are better off for taking some water with their meals. Water is an aid to the chemical activities of digestion, and is furnished by the body itself in large amount. The gastric juice, of which the stomach makes about a pint and a half per meal, is made up of nine hundred and ninety-five parts of water per thousand. By drinking water with our meals we help to furnish a part of this water directly. Whether this should be a part of the meal or several glasses can be determined only by the experience of its effects by the individual. Such water should not be taken ice cold nor very hot. A healthy appetite, the appetite for hunger, like a healthy mental appetite, needs no sensational drinks.

GOOD REPORT

Doctor Proved Value of Postum

Physicians know that good food and drink, properly selected, are of the utmost importance, not only for the relief of disease but to maintain health even when one is well. A doctor writes, "I count it a pleasure to say a good word for Postum with which I have been enabled to relieve so many sufferers, and which I count, with its valued companion Grape-Nuts, one of the daily blessings."

"Coffee was banished from my own table some time ago and Postum used regularly in its place." (Both tea and coffee are injurious to many persons because they contain the subtle, poisonous drug, caffeine.)

"I frequently find it necessary to instruct patients when they take Postum for the first time to be quite sure that it is properly made according to direction, then it has a clear, sweet brown color and a rich, snappy taste, as well as health giving qualities."

The above letter, received over ten years ago, is fully confirmed by a recent letter from the doctor, in which he says:

"It is a pleasure to render a good report covering a product of which I am so enthusiastic a friend."

"I am using in my home your Postum Cereal in both its forms. And what is more, I am having it used in the families of several patients in which there are children, and all quite in endorsing the fine qualities of your admirable product."

Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms: Postum Cereal—the original form—must be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup. "There's a Reason" for Postum.

Wheat 4,000 Years Old

Came From Ruins in Egypt, But is Kept in Texas

When the late John Cardwell of Austin, Tex., was United States consul at Cairo, Egypt, he sent to his old friend, Col. P. F. Holland, of Dallas, a small quantity of wheat that he had taken from the tomb of one of the ancient kings in newly explored ruins upon the banks of the Nile.

This wheat was known to be more than 4,000 years old. The glass container which holds the grain is hermetically sealed. To all outward appearances the wheat is just as sound as the day it was fayed from the head in the long ago, when the earth was inhabited by a civilization that is now forgotten. The grains are plump and large.

"I have been told that the grain would probably germinate if planted, but I have never tried any of them," Col. Holland said.

One of the commonest complaints of infirm people is indigestion. An effective application for it is Mother Graves' Worm Exterminator.

Mrs. Brindle—Now Mary, I want you to be careful. This is some very old table linen—been in the family for over two hundred years—and—Mary—Ah, sure, ma'am, you needn't worry. I won't tell a soul, and it looks as good as new anyway.

Minard's Liniment Relieves Neuralgia.

Selecting Eggs For Hatching. Select eggs from only the best hens in the flock.

Eggs for hatching should not weigh less than two nor more than two and one-half ounces. They should not be washed, as this lowers their vitality.

The eggs should be gathered two or three times daily and placed in a dry place where the temperature is between 70 degrees F.

Keep the eggs on their sides and turn twice daily before putting them into the incubator or under the hen.

Avoid eggs that have transparent shells or a rough appearance; long, pointed or short, rounded eggs should not be used.

Use eggs uniform in size, as they absorb the heat to a better advantage. Hold no eggs for hatching purposes longer than two weeks before putting them into the incubator or under the hen.

CHILDROOD CONSTIPATION. Mrs. Andrew G. Lund, Hughenden, Alta., writes: "Two of my babies were very much troubled with constipation and I tried several remedies without success. A neighbor advised me to try Baby's Own Tablets and they were so satisfactory that now I would use nothing else." The Tablets never fail to cure constipation and they may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

No Charge

Observant Manager (catching his clerk kissing his daughter)—"Now, young man, I don't pay you for that kind of work."

Surgiced Clerk—No-o, sir. And I don't propose to charge anything extra for it.

The use of Miller's Worm Powders insures healthy children so far as the ailments attributable to worms are concerned. A high mortality among children is traceable to worms. These sap the strength of infants so that they are unable to maintain the battle for life and succumb to weakness. This preparation gives promise of health and keeps it.

Saskatchewan Weed Law

By an amendment to the Noxious Weeds Act, the Saskatchewan legislature has placed upon every municipal council the duty of appointing inspectors to enforce the provisions of the act. Neglect to do this leaves each member of the council liable to a fine not exceeding \$25. For the better enforcement of the law the province has been divided into six districts and sold mail inspectors over each. It will be the duty of these men to visit weed inspectors and councils and take such action as may be necessary to have the law enforced.

After Ten Years of Asthma Dr. J. D. Kellogg's Asthma Remedy has proved the only relief for one grateful user, and this is but one cure among many. Little wonder that it has now become the one recognized remedy on the market. It has earned its fame by its never failing effectiveness. It is earning it today, as it has done for years. It is the greatest asthma specific within the reach of suffering humanity.

Maple Leaf For Canadian Toys. A Canadian toy makers' and toy buyers' association has been formed in Toronto, with a board of directors selected from various parts of Canada. Superstition Increasing in Germany. The Munich correspondent of the Berliner Tagblatt describes the recent prosecution of various types of occultists who have driven a flourishing trade during the war. Astrologers, soothsayers and palmists have reaped a golden harvest. A gigantic industry has been built upon the superstitions of the people, and the adepts in various towns are in touch with each other and with a central organization. These soundwells are held responsible for numerous cases of mental breakdown and suicide.

Ask Around You For the Proof

THAT DODD'S KIDNEY PILLS ALWAYS CURE KIDNEY DISEASE

In Every Neighborhood You Will Find People Cured of Backache, Rheumatism, Dropsy or Diabetes by Dodd's Kidney Pills.

Lac Houchette, Lac St. Jean, Que.—Special—Mr. Arthur Fleury, well known and highly respected here, has issued a short, concise statement in regard to Dodd's Kidney Pills, as follows:

"I have found that Dodd's Kidney Pills are an excellent remedy and that they cure kidney disease, rheumatism and indigestion."

Mr. Fleury has received such benefit from Dodd's Kidney Pills that he

wants other sufferers to know how to find relief. He feels it is his duty to his fellowman.

If you inquire among your neighbors you will find scores of people who have found in Dodd's Kidney Pills relief from backache, rheumatism, dropsy, heart disease, or some other of the dangerous diseases that mark the advanced stages.

You will find that Dodd's Kidney Pills cure kidney trouble, no matter where or in what form it is found. Ask your neighbors for the proof.

You never can tell. A man may be perfectly honest and still have a different umbrella every time it rains.

"I want Bovril—not that!"

No substitute will save money in the kitchen as Bovril does, or give the same nourishing value to soups and stews. It takes the beef of an entire ox to make less than two dozen bottles of Bovril. Bovril is thus so strong that it cannot possibly be put up in cheap cubes. Get the real thing—Bovril in the Bovril bottle.

Belgian Banker Who Has

permitted by the German administration to come to Paris on business connected with relief work, states that the chief luxury of life in Brussels is the purchase of London and Paris newspapers, which can be had easily if one will pay the exorbitant price demanded.

The Times of London is worth 32 francs (\$6.40), the Temps of Paris 25 (\$5.00), the Matin of Paris 20 (\$4.00) and the other French papers 18 (\$3.60). The penalty for being caught with one of these papers is not severe and is usually not enforced against persons of good standing, but the penalty for the agency which distributes the papers would be very severe.

The German officials have had no success in running down the distributors, so it is thought that perhaps German soldiers have their hand in it, for the profits on a couple of hundred copies of the Times each day are considerable.

The taste for frog eating is increasing in America. Last year 8,000,000 frogs were placed on the markets of St. Paul and Minneapolis.

The food which is taken to nourish the body and keep up vigor and strength becomes a poison to the system when digestion fails. You feel drowsy after meals, lose appetite, suffer from constipation, have pains in the bowels and through the body. Instead of being digested, the food ferments and gives rise to gas or wind on the stomach, which crowds about the heart, causing suffocating feelings and derangements of the heart's action.

Resort to aids to digestion cannot afford more than temporary relief, for the trouble is caused by torpid, sluggish action of the liver and bowels. These organs must be awakened so that they will filter the

poisons from the blood and remove from the system the accumulating waste matter.

Here lies the cause of indigestion and dyspepsia, and neglect only leads to chronic and complicated derangements, which destroy all comfort and shorten life.

The ideal treatment for indigestion is Dr. Chase's Kidney-Liver Pills, because they promptly and positively remove the cause of trouble. Acting directly and specifically on the liver, kidneys and bowels, they cleanse the system of all impurities, and their occasional use keeps these filtering and excretory organs regular and active. The blood is purified, pains and aches disappear, and such derangements as indigestion, constipation, biliousness, backache and kidney derangements are cured.

One pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations disappoint.

The recent gopher contest at our monthly U.F.A. meeting was held on Saturday evening.

The number of tails brought in ranged from 1 to 100. Levi Bone and G. T. Jones having over 100 gopher tails each. It was not decided when the supper would be given by the losing side.

It was decided to have the U.F.A. Picnic on July 12th, in Mr. Roedler's field, followed by a dance in the schoolhouse at night.

Various committees were appointed. Amusements of all sorts are to be provided. Proceeds after all expenses are met are to go benefit the local U.F.A. Come one, come all.

Mr. Hugh Mackay has recovered from his recent accident, having been kicked by a horse.

Mrs. Fred Turnbull has returned from visiting in Calgary.

Mr. G. T. Jones has bought another quarter section of land.

Progress the Watchword

Progress is the watchword of the Edmonton Exhibition Association, and the prize list for the Exhibition of 1916, which takes place on July 16th-15th, shows material advancement toward the recognized standard of perfection, and is decidedly up to date.

Among the features worthy of special mention is the addition of \$1,000 to the prizes for cattle, as well as a substantial increase in the amount of prizes offered for sheep. In cattle a class has been made for cows four years old and over, as well as for three year old cows, all through the list. The poultry classes are also increased, and special attention has been given to this department of the exhibition with a view to encouraging the utility breeds. The total amount offered in cash prizes is approximately \$25,000, something to be proud of in times like these.

Farm products have also secured their quota of consideration. Since the dates of the exhibition come while this year's grain is still growing, exhibitors are allowed to exhibit last year's grain, and this will afford an opportunity to every farmer to compete for the generous prizes offered.

Exhibits in dairy and household products have displayed an increased interest from year to year, and these departments have also been revised and brought strictly up to date. Since Northern Alberta is essentially a mixed farming country, this exhibit should be among the most keenly contested.

The list of attractions shows many splendid features, including the aviator, Katherine Stinson, who has a phenomenal record for unique and sensational performances in New York, Chicago, Los Angeles, and other prominent American cities.

Both from the standpoint of practical interest and entertainment the exhibition 1916 promises a programme which has never been excelled.

Some Other Mother's Boy

SOME OTHER mother's boy can be a soldier,

Not MY own 'tittle tootsy-wootsy pet!

Don't talk to me of what I owe my country;

Some OTHER mother's boy will pay the debt.

It isn't fair to ask so much of MY boy

When OTHER mother's boys have blood to shed;

MY boy is too polite,

He really couldn't fight;

Some OTHER mother's boy can be a soldier!

Our country isn't in a bit of danger;

The OTHER boys will keep the foe at bay;

MY precious boy could never shoot a stranger;

I didn't bring MY darling up that way.

Some OTHER mother's boy can fight for MY boy,

For fighting isn't neighborly or nice;

WE are not so idiotic;

Only fools are patriotic—

With a million OTHER boys to be the soldiers!

MY boy has got a gentle little sister;

Some OTHER mother's boy will be her knight!

Some OTHER mother's boy will guard her safely;

Some OTHER mother's boy will make the fight;

For her some OTHER boy will write in torment;

For her some other boy will taste of Hell.

What if we both neglect her?

Some OTHER will protect her!

Some OTHER mother's boy will be a soldier!

CROSSFIELD, ALTA., JUNE 2, 1916.

Mr. Farmer

The breeding of horses has become a matter of prime necessity. Before the war commenced there was a slump in prices owing to financial conditions and the inroads of motor power that led to a cessation of breeding. Then the war came with its demand for certain classes. Following the previous decline in the demand many farmers sacrificed their mares. The result is a serious depletion and a sure scarcity.

The demand is increasing and will continue to increase long after peace has been declared. If Canada is to take advantage of the situation the time to start it is now. There will be an assured market demand for foals at weaning time from mares bred now.

Not only has the wastage by reason of war been enormous, but in all the belligerent countries, not omitting Great Britain, there has either been a partial stoppage or a whole stoppage of breeding by reason of the scarcity of labour, the disturbed conditions, or entire devastation.

Whether the war lasts or ceases there must continue an undiminished demand for horses. When peace comes there will be a long period of replenishment. Then quality as much and even more than quantity will be required. Hence the evident call to every Canadian farmer is to breed and to breed to the best available, to utilize his mares for production and to secure the immediate services of the best pure bred sire of type in his neighbourhood. It will pay.

This appeal is addressed to you with the endorsement of the various horse breeders' associations of Canada, who urge decisive action by the farmers of Canada, to remedy the serious situation that has arisen.

Calgary Industrial Exhibition 1916

Prospects are the brightest for the success of the Calgary Industrial Exhibition to be held June 29th to July 5th. The prize list is now ready, and the entries close on the 15th June. The soldiers who have been using the buildings during the winter have just left for England, and the buildings will be rapidly prepared for the Exhibition. The programme of attractions is an outstanding one including many features any one of which would be worth a trip to exhibition. Miss Stinson, the wonderful girl aviator, who will appear twice daily at the exhibition recently attended the thousands of visitors at Sheephead Bay, New York, by her wonderful work. The New York daily papers were very loud in their praise, and our vision will be fortunate in being able to witness such special features at Calgary as are seen by those residing in the largest centres of the United States. Prize List and illustrated pamphlet may be obtained from E. L. Richardson, Manager, Calgary, Alberta.
